Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

A * * * following a place name indicates that the place is coterminous with a tribal census tract boundary. Tribal census tracts may follow MCD, but the MCD name is not shown.

This map shows tribal census tract boundaries and numbers within the subject county. Tribal census tract boundaries are shown only for those tracts that are within the county but without numbers. A tribal census tract is a type of census tract that is located within a reservation or on a reservation, but is not a reservation tract land but for the purpose of providing data based on an American Indian hierarchy rather than by state and county. Where reservation or reservation tract land is shown, the tribal census tract number is not shown. Tribal census tract number may be assigned on both sides of the boundary.

A * * * following a block number indicates that the block number is repeated
